Program 8

To configure DNS server to demonstrate mapping of IP addresses and domain names.

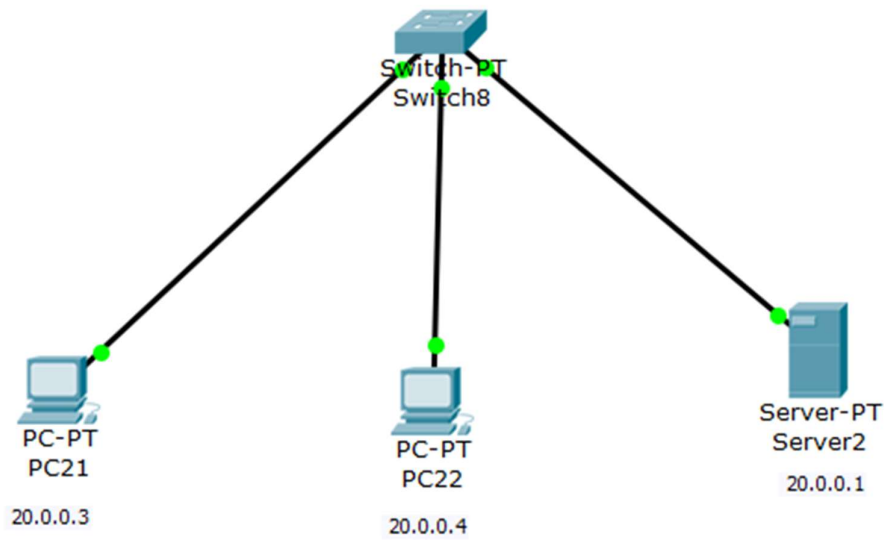

Figure 51: Topology

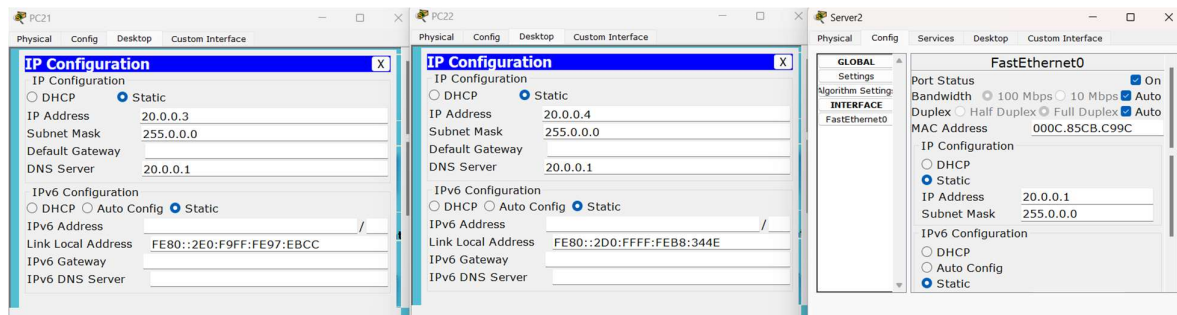

*Figure 52: IP Addresses*

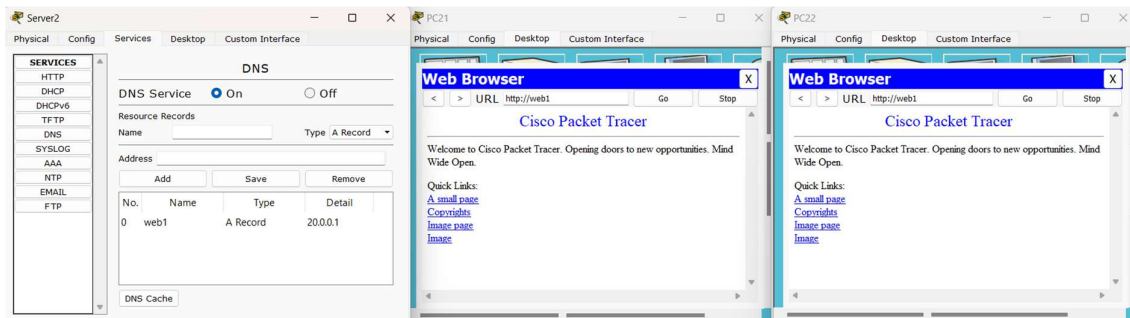

*Figure 53: Server and the website*

Figure 54: DNS and domain names

Figure 55: Observation Book 1

Observation:

1) The web page hosted by the server visible on the browser.

2) The DNS was successfully in mapping the domain name to IP address.

3) DNS Server is a server that contains a domain name: IP address mapping to which the end device send requests to map the name of IP address.
